

Chimata Aswini

B.Tech Student • SRM University AP

aswinichimata07@gmail.com | github.com/Aswinichimata18 | linkedin.com/in/aswini-chimata-9a145035b

Summary

Passionate B.Tech student focused on web development and AI. I love building user-friendly applications that combine clean design, solid engineering, and a touch of intelligence.

Education

B.Tech, SRM University AP — CGPA: 7.77

Skills

Languages: Python, JavaScript, C++, C

Frontend: React.js, Tailwind CSS, HTML, CSS

Backend: Node.js, Express.js, PHP

Databases: MongoDB, MySQL

Projects

Home Automation — IoT-based home automation system using Python & Flask.

Online Learning Platform — Full-stack platform for courses and certifications.

Car Price Prediction — ML model that estimates car resale value.

Achievements

- 2× Hackathon Winner — top placements in competitive hackathons.
- 4× Hackathon Participant — collaborated with diverse teams under pressure.
- Shipped multiple real-world IoT, ML, and full-stack projects end-to-end.

Interests

Hackathons, rapid prototyping, AI/ML, IoT, and team collaboration.
